

Assessment Specifications

General information

Domain	Economics
Level	2
Mode of Assessment	Written Examination
For Year	2013
Standards	91222, 91223, 91224

Special notes

For higher levels of achievement, candidates should use relevant resource material to contextualise their answers. Use of appropriate economic terminology and integrated relevant economic graphs to aid explanations are also required.

Candidates may be required to use a Government policy context when analysing causes of change in inflation, trade, and growth.

Candidates may also be required to analyse the effects of exchange rate appreciation and depreciation on inflation, trade, and growth.

Content/context details

Questions in each paper will draw on specific examples from contemporary New Zealand contexts.

Equipment to bring

Candidates are advised to bring a calculator and a ruler.
